

# HELIOS RADIANT TITAN INTELLIGENT

## PROFESSIONAL INFRARED HEATER

AN ITALIAN EXCELLENCE

**This infrared heater  
can allow your company to save  
over 70% on heating costs**

- It can be programmed according to the needs of working areas, times and indoor and outdoor temperatures.
- Localized warming only on the working zones (local warming).
- Immediate and adjustable heat.
- Without energy waste, the energy used transforms in 97% heat output.
- Can only be activated in the presence of people.
- Does not move air, safe for workers' health.
- No combustion, no CO<sub>2</sub>.
- No maintenance and low cost. Several models available.

➤ **And if you have or are thinking about photovoltaics, the savings are almost total**
